To Whom It May Concern:

I decided to contract Visions By Design for our new promo video project at Columbia Bible College in 2006 because the company was local, we received immediate response to a request for a quote, and we were able to meet with Cindy to discuss the project before any quotes or decisions were made. We were also very pleased with the price quote we received.

Visions By Design was a great choice for our video project for several reasons. They took much of the responsibility for timing and organizing shots so that I did not have to do that. They were efficient in getting the testimonies and planned shots done. They were able to give great direction and prompting for the shots as well. They took the time to develop a good understanding of who we are and what we wanted our video to portray.

We were pleased with the results. The project remained on budget and was developed very well. They have an eye for detail, flow and energy. They were easy to work with and very friendly and personable.

I would strongly recommend others to hire Visions By Design for their upcoming video projects.

Sincerely,

A handwritten signature in cursive script that reads "Melanie".
