Testimonial: Visions By Design

I am pleased to offer a letter of support for "Visions By Design".

As the Canadian representative for E-Myth Worldwide I am responsible to document testimonials for our products & services. "Visions by Design" is my first choice to call when I have a video project.
(see <http://www.emyth.com/pub/htdocs/255>)

I met Cindy through my work and was impressed by her focus to continuously improve the structure of her business so that she can offer the highest standard of service (Working "on" it, not just "in" it). Combining owner Cindy Harris' business savvy with her top of field technical skills, "Visions by Design" has built a reputation as a responsible, reliable, much sought after video production company.

On one particularly large project, the Visions by Design team exceeded my expectations. It was a last minute project that was pulled together professionally and the final product was delivered on time with exceptional quality. I was impressed.

You may contact me if you would like any additional information or specifics on my projects with Visions by Design.

Warm regards,

Beverlee Rasmussen
