RE: Visions by Design

To Whom It May Concern:

I first met Cindy Harris through the Valley Women's Network and it was apparent from our first introduction how passionate she is about her work and how she extends herself to others. It was clear to me that Cindy and her company, Visions by Design, was a natural fit for our organization, KindActs.

Over the years, Vision by Design has helped us by providing footage for our school-based program, the Coin-spiracy, and producing a video showcasing our annual World Kindness Concert. These videos have gone far in promoting our organization and the work we do, both locally and internationally.

All of us at KindActs have always found Cindy a pleasure to work with. Her skill, dedication, passion, and creativity are so valued by our organization. Moreover, by giving constructive feedback, Cindy has encouraged us to produce a better, more sophisticated end product. The users of the video products often comment how very effective they are as communication tools. Needless to say, we are exceptionally happy with the work Visions by Design has done for us, and will continue to keep Visions by Design at top of mind for all our video projects.

Sincerely,

Gail Smit
